Emergency Product Line By:

Get a Kit

Planning ahead will help you have the best possible response to disaster.

Remember to check your kit every six months and replace the stock as needed. An easy way to get your kit started is to contact your local Red Cross or go online to redcross.org to order an emergency preparedness kit today. If you purchase a kit or choose to build your own, check that it includes—**Water, Food, Flashlight, First aid kit, Medications, Radio, Tools, Clothing, Sanitary supplies, Contact information, Map**

Make a Plan

Have at least three days of supplies in an easy-to-carry emergency preparedness kit, with additional supplies on hand.

- Talk.** Discuss with your family the disasters that can happen where you live. Establish responsibilities for each member of your household and plan to work together as a team.
- Plan.** Choose two places to meet after a disaster:
 - Right outside your home, in case of a sudden emergency, such as a fire.
 - Outside your neighborhood, in case you cannot return home or are asked to evacuate your neighborhood.
- Learn.** Each adult in your household should learn how and when to turn off utilities such as electricity, water and gas.

Be Informed

Know what may happen and how you can help.

Learn what disasters or emergencies may occur where you live, work and play. These events can vary from those affecting only you and your family, like a home fire or medical emergency, to those affecting your entire community, like an earthquake or flood. Identify how local authorities will notify you during a disaster and how you will get important information, whether through local radio, TV or NOAA weather radio stations or channels.
